

# 9000/9200 SERIES TELEMETRY

STRAIGHTFORWARD PROBLEMS, EFFECTIVE SOLUTIONS

## High Density 9200 Series

Processor/modem module supporting multiple: 24DI, 24DO, 16AI, 16AO, dual port serial and 8 pulse input modules.  
Open collector, relay, opto-isolated, 8 & 12 bit IO options.  
MODBUS, polled & event driven protocols.  
PSTN, landline and RS232/485 communications.

Designed,  
Manufactured  
and Supported by  
BIS Technologies.

## Simplified 9000 Series

Processor /8DI/1DO/  
modem module  
supporting multiple: 8DI,  
8DO, 8AI, 8AO and  
thermocouple modules.  
Open collector, relay,  
opto isolated, 8 & 12 bit  
IO options. Software and  
communications  
identical to 9200 Series.
